## Work Experience

### Nike

April 2025 - Present

#### IAM Engineer

- Manage an enterprise certificate life cycle platform supporting high-volume, real-time authentication and establishing trust and secure communication throughout the enterprise
- Partner with engineering teams to support identity-based authentication flows, troubleshoot production issues, and implement platform enhancements with uptime and latency considerations
- Develop Python-based monitoring and drift detection tooling to identify anomalous behavior, configuration deviations, and system health risks impacting secure access

### Netflix

November 2023 - January 2025

#### Security Risk Engineer - L4

- Led development of Python automation pipelines to extract, normalize, and analyze high-volume security telemetry, producing real-time KRIs used by leadership to monitor enterprise risk
- Designed signal aggregation and weighting models to translate noisy, heterogeneous data sources into actionable risk indicators with executive visibility
- Refined enterprise risk management processes by defining ownership models, escalation thresholds, and OKR-aligned risk indicators, improving executive visibility and accountability for security outcomes

**NETFLIX**

### Deloitte | Cyber Risk

July 2020 - November 2023

#### Consultant

- Designed and implemented KRI/KPI frameworks to measure control effectiveness, maturity, and risk exposure across cyber capabilities
- Advised multinational financial institutions on cyber governance, risk transparency, and regulatory response, including FTC engagement

**Deloitte.**

### Analyst

- Python development for a physics simulator, mimicking cyber effects to a missile defense engagement

## Skills

### Data & Automation

Python (Pandas, NumPy)  
KPI/KRI/OKR Development  
PowerBI/Tableau

### Security & Risk

FAIR Risk Modeling  
NIST CSF  
Controls Assessment  
Risk Attestation & Transparency

### Cloud & Infrastructure

AWS (IAM, ECS, Lambda, Cloudwatch Logs/Alarms)  
Azure (App Gateway, WAF policy, Linux VM sysadmin)  
PagerDuty  
Cloud & Hybrid Environments

## Certifications

AWS Solutions Architect Assoc.  
AWS Developer Associate  
AWS Cloud Practitioner  
CompTIA Security+

## Education

Arizona State University 4.13/4.0  
B.S. Information Systems  
B.S Business Data Analytics  
Outstanding Graduating Senior
